Hazards	7
Best Practice Land Management Approaches	19
<b>Carbon</b>	<b>6</b>
<b>Social Science / Engagement / Behaviour change</b>	<b>16</b>
<b>Linking projects / implementation of research</b>	<b>26</b>
<b>Urban Pollution / Pollution</b>	<b>13</b>

## Challenges / Opportunities

**Climate Change emergency** – link in to momentum behind this campaign to drive impact

**Organisational Change** – ensuring recommendations are embedded across an organisation

**Measuring Benefits** – better quantification of benefits help business cases and leaving money

**Improving Soil health** – mechanism to deliver multiple benefits

**Learning from users** – Wealth of user knowledge that projects could use – don't just use academic findings

# We want to hear from you....

**Are there any other priorities or issues that we haven't touched upon so far today?**

**Are there any other pieces of useful information you can share?**

# Water Sector Yorkshire

- Strength in places scheme funded by UKRI
- Investment of up to £50M in a region to support growth of a sector
- Research and innovation driving economic growth.
- Eols due in October.
- Must involve Universities, business, civic sector and have LEP support
